Overall a decent game. It's entertaining has good visuals V soundtrack that will make game sessions enjoyable. If you're interested chances are you'll like this game.

Pros:

- Good visuals, meaning menus, CGs, characters' art, etc.
- Good soundtrack.
- Multiple endings.
- Fully voiced.

Cons:

- Tedious battle system, it's so slow and repetitive.
- Voice acting is not the best.
- Money can be hard to get sometimes unless you keep reloading your game.

Worth the price. I would buy again.. The Music is amazing, the CG Looks Beautiful, the story are nice, I love this game. No where near as good as I was expecting.

Theres just...Nothing...The whole game lacks substance the story is \u2665\u2665\u2665\u2665ing transparent as all hell, the fighting mechanics are interesting to a point, the girls all \u2665\u2665\u2665\u2665ing suck, except for Eve.

Lets tackle the story first. There is just a whole of nothing, don't expect a good story going into this. It briefly touch's on it and then it throws you out\u2665\u2665\u2665\u2665\u2665first into the game. Bottom line is you're fighting geometric shapes with telepathic abilities. Grab a gun, pick your waifu, and you're off. You've got 30 days to woo the girl of your choosing and prepare yourself for the final fight which, to me, was the only challenging part about the game.

When I play a visual novel/dating sim, the most important thing to me is the girls. The story could be\u2665\u2665\u2665\u2665 but good girls can potentially save the game. Sometimes. That is not the case with this, the girls all suck (Except for Eve) and I could give two \u2665\u2665\u2665\u2665 about them, dialog is horribly written and the voice acting, while not half bad at some parts, still cause my ears to bleed.

I'm not asking for Sunrider level story-telling here, I'm just asking why I should give a\u2665\u2665\u2665\u2665\u2665 I felt no emotion playing this game, the dates I went on with the girls showed no reason that they should love me, the Eve route all you do is just train a bit and all of a sudden she loves you. Before the final fight they try and make it seem like your long struggle is coming to an end and all I could think of was "What struggle?" The aliens haven't been that much of a threat the entire game and yet the game wants you to think its like facing your life-long enemy.

Basically, what this all boils down to, is what I mentioned before. It lacks substance. Story, Girls. Gameplay Mechanics. Its all there, if you look hard enough, but there is nothing there to support any of that. Why should I give a\u2665\u2665\u2665\u2665\u2665 about a city that looks like it has zero people in it, why should I give a\u2665\u2665\u2665\u2665\u2665 about all these soldiers that just showed up during the final fight, why should I care that Jon got half of his torso blown off, who even is Jon???

Save your money. But if you're really curious about the game buy it on sale.. Bought a girl 50 water bottles and she dumped her insecurities on me 10/10 Jennifer best route
